EDUCATION

Information and Communication
Technology University

Major: Information Technology

2022 - 2026

SKILLS

- Programming : Python 7/10.
- AI & Data: Machine Learning (ML), Deep Learning (DL), Supervised/Unsupervised Learning 7.5/10.
- Tools Data Annotation: CVAT, Label Studio 9/10.
- Soft Skills: Time/Project Management, High Pressure Tolerance, Rapid Adaptability, Readiness for Innovation.

LANGUAGE

English (B2)

Vietnamese

About Me

4th-Year IT Student (21 years old) at ICTU with a burning passion for Artificial Intelligence and Data. I possess a high tolerance for pressure, coupled with strong adaptability and a readiness for innovation. Driven by a commitment to deep learning, I strive to deliver creative and effective solutions in every project.

WORK EXPERIENCE

AI & Data Full-Cycle Expertise

- Data Full-Cycle: Proactively managed the entire data pipeline: personally collected unique image/video datasets (real-world shooting/capture).
- Data Annotation: Proficiently and meticulously annotated data using platforms like CVAT and Label Studio.
- Model Building: Built and mastered Machine Learning/Deep Learning models (Supervised & Unsupervised), and confidently integrated them into web platforms.

Project Management & Personal Development

- Team Management: Excellently developed skills in efficient time management and effective task distribution for the team during project execution.
- Learning Mindset: Always ready to learn new technologies and continuously discover and address personal shortcomings.
